DIFFERENTIATORS

- **Experience** - Our team has extensive experience at CDC, managing government programs in various CIOs from inception to execution. Our experience coupled with our innovative approach helps us address the issues that matter the most.
- **Quality** - We use a proven quality management system derived from ISO 9001 standards and best practices as part of our delivery process to enhance our customer satisfaction and experience.
- **Communication** - We believe collaboration is a catalyst to project success. Our team ensures prompt responsiveness and constant collaboration throughout the engagement providing clear insights and transparency into project performance.
- **Veteran Owned & Operated** - As former Service members, we understand the importance of accomplishing a shared mission. We are fully engaged to deliver quality and timely service while supporting your organization's small business goals.

PAST PERFORMANCE

- **U.S. DEPARTMENT OF THE ARMY:** Designs and executes outreach programs that engage K-12 and college students in hands-on STEM experiences, advancing workforce development and inspiring future talent in science, technology, engineering, and mathematics aligned with national defense priorities.
- **ARMY NATIONAL GUARD:** Supported the Army National Guard Bureau's audit readiness and financial management operations by providing strategic planning, internal controls assessment, financial transaction reviews, data analytics, and customer service support across all 54 states and territories to enhance compliance with DoD financial regulations.
- **CENTERS FOR DISEASE CONTROL AND PREVENTION:** Provides front-line administrative, program management, and records support services to CDC's Division of Viral Diseases and the National Death Index, managing executive operations, data systems, client communications, and federal compliance tasks to ensure efficient public health program delivery.
- **CENTERS FOR DISEASE CONTROL AND PREVENTION:** Provides embedded programmatic, administrative, and operational support to CDC's Division of Viral Diseases, managing executive scheduling, travel coordination, space planning, inventory control, and onboarding processes to ensure seamless daily operations and alignment with federal policy mandates.
